CHELAN™

TUCKED AWAY COMFORT.

Introducing the Chelan™ by Kintec Solution, an incredible compact motion furniture component designed for low to mid-leg seats. This innovative mechanism is operated by a simply effortless and intuitive power switch. The Chelan™ is not only functional but also aesthetically pleasing with its tucked away ottoman neatly positioned underneath the seat. This unique design allows for a stress-free relaxing position, ultimate comfort and support. With its excellent footrest elevations, and the zero-wall design, the Chelan™ truly takes relaxation to a whole new level.

Patented Technology - Products safeguarded by international patents.
